- Belgian Congo

To find an item in this list, please use Adobe's powerful search function.

We obtain our stock from collections we purchase.
 We do not have a Belgium supplier.
 Consequently, where something is unpriced, we do not have it at present.

We list all items we have in stock, including broken sets, and singles from sets.

Prices subject to change without notice.

Please note that GST (currently 10%) is applicable from 1 July 2000.
 International sales are GST free.

The prices in this list
INCLUDE
GST
All prices are in Australian dollars.

				<p>When not directly incorporated into the stamp design, relevant Express Post stamps from this time on were issued in sheets of 10 with "PRIOR" printed on the selvedge against each stamp. Some selvedge was perforated, while some was not. The selvedge can be at the left, right, top or bottom. Only fully perforated selvedge can rightly be called a label (more accurately, a tab). However, SG refer to all such selvedge as labels. Michel does NOT classify them as labels [Zf suffix] but does illustrate such stamps with the attached PRIOR selvedge / tab.</p> <p>The PRIOR design was subsequently changed (below). Main-stream hingeless albums do not illustrate these "labels" and, consequently, collections typically contain stamps without "labels". As most of our stock comes from such collections, stamps listed below may be supplied with or without a label, depending upon available stock.</p>

RAILWAY PARCELS STAMPS									
				<p>Unless otherwise stated, used stamps bear rectangular or six-sided railway parcel cancels.</p> <p>Grading of stamps into Fine Used and Used categories is problematic as parcel cancellers were designed to obliterate each stamp, and intrude on to surrounding stamps.</p> <p>When grading the postmark, we consider clarity, thickness and any ink bleeding.</p> <p>Multiple strikes on each stamp are normal.</p> <p>Grading of railway parcel stamps can not be compared to normal postage stamps.</p> <p>Whilst cds cancels do exist, they are in the tiny minority. Examples are illustrated below.</p>					
									
				<p>left = Used right = FU</p>
