La Poste does not make self adhesive stamps from sheets available in philatelic quantities.

Many self adhesives are also made available only to the corporate sector or as P-stamps and not philatelically.

Thus we are unable to supply such issues.

To find an item in this list, please use Adobe's powerful search function.

We obtain our stock from collections we purchase. We do not have a France supplier. Consequently, where something is unpriced, we do not have it at present.

We list all items we have in stock, including broken sets, and singles from sets.

SG notes the existence of "P" stamp sheetlets but does not assign numbers. However, they do not assign numbers where stamps are only issued as "P" stamps.	YT assign "A", "B" or new numbers to individual "P" stamps. However, they do not distinguish label types or assign numbers to most generic sheetlets.										
<i>Stamps illustrated are listed on the next page.</i>
