|        |        |           |        | Starting in 1989, An Post began issuing booklets which contained panes containing commemorative stamps with imperforate edges. The imperforate edge stamps come only from the booklets. It is uneconomic for us to break up these booklets to supply only a fraction of their contents. Consequently, collectors who require imperforate edge commemoratives need to buy the relevant booklet. |       |       |     |       |      |
