The Philatelic Foundation of South Africa (rather than the South African postal administration) issued a number of Minature Sheets at a premium to aid various stamp exhibitions.

From 1996, sponsored [corporate] Minature Sheets were produced for specific organisations for advertising and publicity purposes and sold at face value.

Both were available through the South African Philatelic Bureau. They are listed by Michel and the SASCC but only noted by Stanley Gibbons. They are included in this price list for completeness.

For issues prior to 1952, and all broken sets, see List 48A - World - British Commonwealth

For sheetlets and for some M/Ss, when manufacturing FDCs, the South African Post Office strips the selvedge from the edge of the sheetlet and applies the remaining block, or strips therefrom, to the FDC. As FDCs constitute a significant source of FU stamps,

frequently FU sheetlets or M/Ss are not available intact. We note this in the following list for each item where this occurs.

This, of course, does not deny the existence of CTO sheetlets or M/S.

Note also that the distinction between a sheetlet and M/S is blurred and the various catalogues do not adopt a common definition.

What are sheetlets to some, are M/S to others, and vice versa.

The definitives of South Africa are the most complex of any country we have encountered [GB Machins aside]. Please advise us if you find any mistakes.

To find an item in this list, please use Adobe's powerful search function.

We obtain our stock from collections we purchase.

We do not have a South Africa supplier.

Consequently, where something is unpriced, we do not have it at present.

Prices subject to change without notice.

Please note that GST (currently 10%) is applicable from 1 July 2000.

International sales are GST free.
