EAST GERMANY [DDR]

List Structure:

Commems & definitives are all together in approximately SG number order

Spendenmarken

First Day Covers

Broken Sets and Blocked Values

Registration Labels

Officials + Central Courier Service

Booklets, Panes & se-tenants ex booklets

To find an item in this list, please use Adobe's powerful search function.

We obtain our stock from collections we purchase.

We do not have a Germany supplier.

Consequently, where something is unpriced, we do not have it at present.

We list all items we have in stock, including broken sets, and singles from sets.

For First Day Cards, see our ETBs List

Prices subject to change without notice.

MNG [Mint No Gum] / USED STAMPS

MNG stamps were previously treated as FU in this list. They are now listed separately.

MNG stamps include untreated / unwashed MUH or M stamps with rust spots.

MNG stamps are priced below Mint

Used stamps are those with heavier postmark, or minor flaws, eg pulled perf.

All FU / used stamps are priced as if CTO originated.

Postally used copies, if available, are substantially more expensive.

Please note that GST (currently 10%) is applicable from 1 July 2000.

International sales are GST free.

The prices in this list

INCLUDE

GST

All prices are in Australian dollars.

BLOCKED VALUES

Commencing in 1955, most commemorative stamp sets issued by East Germany contained one blocked value.

A blocked value is a denomination not on sale to the general public.

The blocked value can be any denomination in the set and ranged from lowest to middle to highest values, but was most often the top value. The most frequently blocked denomination was 25pf.

Within the DDR, blocked value stamps were only available to registered permit-holding stamp collectors and dealers.

They were not generally available at post offices and had to be obtained from the Philatelic Bureau.

They were issued at a substantial premium over face.

They were available unrestricted to foreign Bureau account collectors and dealers who were required to pay for them in hard (foreign) currency.

East Germans were not permitted to hold foreign currency, but many obtained it via nefarious means.

The blocked value concept was designed to prevent East Germans circumventing currency regulations by acquiring foreign currency by selling abroad postage stamps which were purchased in East German Deutsche Marks.

Clearly, no collector or dealer of East German stamps wanted incomplete sets.

This stopped East Germans from accumulating foreign currency offshore and subsequently fleeing the country.

[Remember the Berlin Wall?]

The flip side was that the sale of blocked values to foreign collectors and dealers generated much needed foreign exchange for the East German Government (although relatively small in the scheme of things).

The policy applied to both mint and used stamps.

Blocked value used stamps were supplied CTO. Consequently, postally used blocked values are very scarce and sell at substantial premiums over their CTO counterparts.

Beware of forgeries!

East German issues containing blocked values ceased in 1983.

The blocked value concept was also employed by some other Eastern Bloc countries, eg Czechoslovakia, Poland, for the same reasons.

When available singly, blocked values are listed with Broken Sets, towards the end of this list.
